<b>Office Action Summary</b>	<b>Application No.</b> 10/766,856	<b>Applicant(s)</b> PEREZ, SERGIO	
	<b>Examiner</b> Peter T. deVore	<b>Art Unit</b> 3751	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election without traverse of Species 1 in the reply filed on 9/15/05 is acknowledged. All pending claims (claims 18-21) read on Species 1, so no claims are withdrawn from consideration.

### ***Specification***

The disclosure is objected to because of the following informalities: on page 8, line 2, "pressure chamber 100" should be "pressure chamber 110".

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 18, lines 9-12, Applicant recites "a control inlet for allowing control fluid to pass to a pressure chamber" and "a control outlet for allowing the control fluid to leave said pressure chamber totally or partially". However, there appears to only be a single port 108 that acts as both inlet and outlet for pressure chamber 110, and this port

Art Unit: 3751

is separately recited in the claims as one of the two openings in the hollow portion 104 of the operating stem. Further, in claim 18, lines 35-36, Applicant recites that "an area corresponding to said control inlet is smaller than an area corresponding to said control outlet"; however, the Examiner is unable to discern any disclosure in the specification of an inlet and an outlet having differing areas. Also, in claims 18, lines 32-33, Applicant recites "one of the ends of said end portion being provided with a portion of said main plug"; however, the end portion 103 appears to be a completely separate element spaced apart from the main plug 100.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited disclose valves with features similar to those of the disclosed valve.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter T. DeVore whose telephone number is (571) 272-4884. The examiner can normally be reached on Monday to Friday.
